Scented Soy Candles

[Jump to Comments](#)

A fragrant candle is always a good option when you just don't know what to give. And they're especially romantic this dark time of year. I heart these lovely hand-poured, pure soy wax candles from online shop [Where Did You Get That](#). Soy is an eco alternative that burns longer, cooler and cleaner than parafin (plus its water soluble for easy tidy up). And they come in the prettiest of packages (ok everything at this fab new store is way pretty).

Kobo soy scented candle, \$45.

Psst...Ikea has great inexpensive scented [candles](#) too (though for the price you wont get the same eco blend) - take the label off and wrap with a beautiful ribbon.
